FIND YOUR CLASSES!
REGISTRATION OPEN NOW.

Where else can you be knee-deep in powder and knee-deep in an education at the same time? Talk about major.

GET STARTED!
Colorado Mountain College offers several registration options, depending on your admissions status.

ONLINE
Registration for current degree-seeking students:
http://basecamp.coloradomtn.edu

Registration for all other students: www.coloradomtn.edu/register

PHONE/FAX/EMAIL
Current students can also register by:
- Phone: 970.569.2900
- Fax: 970.569.3309
- Email: cmcVE@coloradomtn.edu

IN PERSON
Drop by our campus, located at 150 Miller Ranch Road in Edwards.

See the back page of this schedule for details on registering for classes, payment, advising, and placement testing.

TEXTBOOKS
Wherever you see & in this schedule, a book is required for the course. Many books must be ordered in advance, so please make plans to order them soon.

You may purchase many textbooks for Colorado Mountain College classes through Follett, our book vendor. Order online at: www.coloradomtn.bkstr.com or by phone at 800.621.4088. There may be other purchasing options as well. Please see your individual class syllabus for ordering information. Get your books by the first day of class so you stay on track.

**PROGRAM SPOTLIGHT**

**SURGICAL TECH**

This fall, eight students started a new program at Colorado Mountain College, one that will prepare them for an in-demand career assisting surgeons in the operating room.

The Surgical Technology program, a collaboration between CMC, Front Range Community College and Vail Valley Medical Center, is the first of its kind on the Western Slope. The collaboration allowed CMC a faster pathway to offer this program for local students, helping both students and local hospitals get the skills they need.

The eight students in the first cohort will spend their first year as CMC students, completing pre-requisites before officially transferring to Front Range Community College for the clinical part of their degree program. The entire two-year program is based locally, with the pre-requisites held at CMC Vail Valley, and the clinical classes held at the Shaw Regional Cancer Center, which offers state-of-the-art operating rooms.

Surgical technicians prepare the operating room for surgery, pass sterilized equipment and tools to the surgeons during surgery, assist during the surgery, and may dress wounds and transfer patients to recovery. They play a vital role that is in demand nationwide.

The next cohort for this unique program will start in the fall of 2018, but it's not too soon to start thinking about applying for this highly competitive program. Contact a college counselor today to discuss the requirements for getting into the program, and create a plan to ensure you are ready to hit the ground running next fall. Call 970-569-2900.
### Computers

#### Business Technology Education
- **BTE-101** Computer Keyboarding
  - 1 CR
  - 10407
  - M
  - 9a-10:50a
  - 2/5-4/16
  - Casey

#### Computer Information Systems
- **CIS-115** Introduction to PC Applications
  - 3 CR
  - 09092 F
  - 3:30p-6:20p
  - 1/8-5/4
  - Casey

### Culinary Arts

### Student Spotlight

**MATTIE ERICKSON**

Maybe being named after a bull rider makes you tougher than the rest. Maybe being raised by a hard-working single mom and a rancher gives you a stronger work ethic. Or, maybe Mattie Erickson is just wise beyond her years.

Whatever the case, Mattie has set herself apart as a CMC student. The Bachelor of Business student started her higher education at Northeastern Junior College in Sterling, Colorado, her hometown. When she was looking to continue her studies and earn a Bachelor’s degree, she picked Colorado Mountain College because she liked the friendly, caring and upbeat atmosphere.

“CMC allows me the flexibility, helpfulness and care I need in a college, while allowing me to design my education to fit my career, social and financial goals,” Mattie explained.

When she saw that many of her classes would be online rather than in person, she was worried she wouldn’t see or hear from the faculty much.

“But, each teacher I’ve had the pleasure to learn from has reached out and impacted me so much, even without ever officially meeting most of them,” Mattie said.

Mattie knows that she is in charge of her future success, and that insight helps her motivate for the long nights of homework required.

“I do not do my homework just to cross it off of my “To Do” list,” Mattie explained. “I think of it as investing in my future success. And if that doesn’t motivate you enough to do four homework assignments on a Saturday night, I don’t know what will!”

Mattie is well on her way to graduating with a Bachelor of Science in Business Administration degree, with an emphasis in Resort Management. But, you still get a sense that hard work won’t stop.

"Many people believe that the higher education system sets you up for failure, but this could not be further from the truth," Mattie said. "Colleges, especially if you are lucky enough to go to one such as CMC, are designed to help you succeed." Her advice? Use the resources available to you. Ask the questions in class, even if you’re embarrassed. Think about the time you spend at college as an investment in a successful future.

"Hard work is only a prison sentence when you lack motivation." – Malcolm Gladwell, from Mattie’s favorite book, “Outliers.”

**FACULTY SPOTLIGHT**

**LIZ OWEN**

The song “To Sir With Love” seems pretty apt for the retirement of Liz Owen, faculty for the Paramedic program at CMC. “The time has come for closing books and long last looks must end; and as I leave, I know that I am leaving my best friend; a friend who taught me that being strong and weak from strong; that’s a lot to learn…”

Liz helped build the Paramedic program from just an idea into the powerhouse it is today. One hundred percent of her most recent class passed the National Registry Exam. In fact, CMC has the highest national paramedic exam pass rate of any program in Colorado. And her legacy continues in the work of her former students.

“I’m most proud of my students who are making a difference,” Owen said. “We have CMC paramedic graduates who are in Portugal, Africa and, just recently, one who is in Puerto Rico helping with the disaster. Our former students are across the country, from the West Coast to the East Coast. They are making a difference in so many lives, and it’s fun to keep in touch and see how successful they’ve become.”

Liz was an adjunct instructor at Colorado Mountain College in Beekenridge for more than a dozen years starting in the mid-1980s, then spent three years teaching EMS at Aims Community College in Greeley, before coming to the Vail Valley campus to start the Paramedic program in 2004. Prior to starting with CMC, Liz taught high school, was a paramedic, ran an ambulance, and was a hyperbaric chamber technician. She also volunteered for search and rescue operations, and did volunteer work in Nepal at 14,000 feet, taking care of trekkers, climbers and locals in a small community.

Liz has always been passionate about teaching and inspiring students. She helped transition the Paramedic program into a hybrid program, utilizing both in-class and online instruction, which makes it easier for students to live anywhere, work and go to school. She was named the 2008 and 2014 Faculty of the Year for the Vail Valley campus.

So, now that she’s leaving, what advice does she have for future students?

“I’d give future students the same advice I give all of the students,” Liz said. “Don’t let yourself get behind. It’s too difficult to catch up. Come and be ready to learn. Enjoy the ride. It’s one of the most difficult years you’ll go through, but the growth is amazing.”

Liz will retire this December. Right now, her plans do not include emergency tracheotomies.

### Important Information:

**Refund Date**
- Refer to your syllabus or contact the front desk. Dates vary by class, but you must drop before 15% of the class is completed in order to receive a full refund. If you drop after that date, there is no refund.

**Class Minimums**
- All credit and many continuing education classes must have 8 students to run. If 8 students are not enrolled one week prior to the start date, the class will be canceled.

At Colorado Mountain College, part of our mission is to contribute to the economic, social and cultural vitality and sustainability of the community we serve. That means we listen. A lot. Last year, we started hearing rumblings about the need for child care for students who take evening classes because all of the day care facilities close. So, we listened. And this fall, we launched Kids' College, free on-site child care for CMC students who are taking credit, GED or ESL classes.

“We have many happy parents that really appreciate that we have this service available and hope it continues,” said Maria Rios, the program’s lead teacher.

More than 20 students utilized the service in its first semester. Many of those students are ESL and GED students, who likely would not be able to set aside time for their education were it not for this service.

“I have a couple that decided to enroll together for GED classes only because they have the opportunity to come to school and bring their child with them and not to worry about finding someone else to watch their child,” Maria said. “Many of our parents have said they feel much better coming to school while their kids are in a safe place with a structured routine. And, as teachers, we notice the children enjoy coming to Kids’ College, and that makes us very happy!”

Child care is offered Monday through Thursday from 5:30pm to 9:30pm for children ages three to 12.

“We are thrilled that offering child care has made education more accessible for our community,” Vice President and Campus Dean Kathryn Regio said. “We know that an education can make a difference for generations of a family, and we know many of the children in Kids’ College will one day be CMC graduates because we afforded their parents this opportunity.”

If you would like to take advantage of the free Kids’ College, you must first register and pay for your classes, then request a space in Kids’ College. Forms are available at the front desk.

**Program Spotlight**

**Kids’ College A Success!**
For all Outdoor Studies classes, participants must be 18 before the first day of class.

**EARLY COLLEGE HIGH SCHOOL**

This fall, 35 students entered into a new, innovative program that is bringing free college to local high school students. The program is called Early College High School, and it is designed to address the changing needs of the workforce and the high cost of a secondary education.

By 2020, 65 percent of all jobs in the country will require post-secondary education or training beyond high school, with 30 percent of those jobs requiring some college or an associate degree and 35 percent requiring a bachelor’s degree or more.

The current percentage of degree holders in the state is 46 percent; in Eagle County, that number is 46.7 percent. The Colorado Commission on Higher Education projects that in order to meet employers’ demands by 2025, 67 percent of the state’s workforce will need a high-quality post-secondary credential or degree.

Colorado Mountain College and Eagle County Schools have collaborated extensively to bring dual enrollment offerings to more than 700 local high school students each year, providing them with early exposure to college-level classes and reducing the cost of higher education for many.

That collaboration is now expanded with Early College High School. Students may now opt to earn their first 60 credits of college — including tuition, books and fees — for free. Students can earn an associate degree, or those first 60 college credits, at no cost to the student or their families.

Here is how it works: In their senior year of high school, students have the option to enroll in two to three college classes per year and CMC can count those credits toward their high school degree. After making the election for Early College High School, students receive an allocation valid towards tuition at Colorado Mesa University, or enough funds to cover the entire cost of their tuition, books and fees at Colorado Mountain College.

Students who opt for Early College High School need to commit by May 1 of their senior year. Students have two calendar years to complete 60 credits. They need to meet college-ready guidelines in English and math, which may be achieved (for free) during the summer months before entering Early College, if not attained by their senior year in high school.

All students who take advantage of this program have access to two years of college for free. In two years, students can launch a career and become firefighters, medical assistants, surgical technologists, early childhood educators, chefs, paramedics, mechanics, welders and more. And, students can begin this new life without the burden of debt and student loans.

Both the high schools and CMC can help you learn more about being part of the next generation of Early College High School students. Don’t delay!
### Science Courses

---

#### ASTRONOMY
- **AST-101**  
  - **Title:** ASTRONOMY I  
  - **Credits:** 4  
  - **Days:** M W  
  - **Start/End Time:** 6:30p-9:30p  
  - **Instructor:** Martin  
  - **Requirements:** College-level composition and reading.

CREATIVITY

CANVAS & CUISINE: MEDITERRANEAN NIGHT
International night is coming to CMC! For $65, experience two and a half hours of step-by-step instruction for creating your own painted masterpiece, while enjoying themed cuisine to match. Our own CMC cafe will be providing a wonderful dinner to enjoy while you paint. Did you know the cafe is open to the public? You can enjoy a tasty variety of international cuisine right here in our valley! Come to this event and experience it for yourself. It will be a night full of culture, creativity and a delicious dinner!

WORKING W/ELEMENTS OF INTERIOR DESIGN
Let’s work with the elements of interior design! In this hands-on class, you will learn about each element involved in Design as you begin with a room floor plan, and over the next eight weeks, finish a complete design by choosing samples of fabric, flooring, wall coverings, along with furniture and accessories. Design elements covered include scale, color, space planning and furniture arrangement plus discussions like “Does it Work?” based on design magazine photos. No experience necessary, just a love for design.

PHOTOGRAPHY

BETTER PHOTOS W/YOUR DSLR CAMERA
Learning to use a DSLR (35mm) digital camera can be fun, but it can be frustrating when you don’t understand the basic settings. Sound fundamentals are the key to getting better photos. This is a fun class and will help you understand that there is more to compelling photography than putting a camera on “Auto” and hoping for a great shot. You will learn about the camera settings for whatever you are shooting. Subjects covered include: aperture, shutter speed, filters/accessories, composition, metering, understanding light conditions, and printing options. Class will have open discussions on how and where to research photos and equipment needs. Weekly assignments will include bringing in current photos for open floor critique. Please, NO “point and shoot” or “innovators” cameras.
Requirements of students:
- Digital SLR camera (DSLR)
- Camera owners manual
- Camera accessory of choice
- Memory stick for images

PHOTOSHOP FOR PHOTOGRAPHERS
Using Adobe Photoshop, this workshop will help you master to quickly and efficient photo processing techniques for consistently professional results, as well as more in-depth layering, comping and blending functions. If you want to go beyond Photoshop basics, this class will teach you more of the program’s in-depth features made especially for digital photographers. You’ll go step-by-step through the instructor’s tried and true photo processing workflow using Adobe Photoshop, Camera Raw and/or the Develop Module from Lightroom, and Lightroom and/ or Bridge’s organizational power. Take your photos to the next level and show hours off your processing time. Go home with a solid workflow plan and an understanding of how to get the most out of Photoshop for photography.

TAKE AWARD-WINNING PHOTOGRAPHS
This interactive workshop is designed for the intermediate photographer who wants to take his or her photography to the next level. For those still making up their minds as to whether or not to attend, here are a few comments from past participants: “The workshop was in a word, outstanding!” “If I could exceed my expectations,” “Would it were longer.” You’ll learn exactly what it takes to capture award-winning photographs, as well as how to avoid the common mistakes photographers make. Landscapes, still life, people, pets, wildlife, night photography, light painting, histograms, challenging light situations, HDR, panoramas...we’ll touch on it all! You’ll be amazed at how much your photography improves. Requirement: A DSLR or mirrorless camera, a flash drive and a desire to learn. (Note: mirrorless cameras must be capable of using different lenses.) No class 5/7-4

PAINTING

PAINTING SPRING FLOWERS
Flowers are great subjects for painting, they are elegant, abstract and exotic, with amazing colors. The repetition of shapes and patterns, and the interplay of light and shadow make them exciting. This class will focus on composition, drawing, color, dimension and perspective. This is a studio class, so we will be painting from reference photos you please bring your own. We will also have some reference photos available.

NARRATIVE WORKSHOP W/HEATHER SAPPENFIELD
This two-week intensive workshop will focus on the craft of writing narrative, either fiction or memoir. You will explore the interaction of narrative elements such as character, setting, point of view, and plot through reading, discussion, in-class exercises, and the creation of a short story or memoir. Figurative language, grammatical structure, and discovering your own voice will be emphasized throughout. The workshop’s last two sessions will culminate in group critique of another’s writing. Building a writing life and a community of writers will be a special focus. Cap of 12 students.

BUSINESS

EFFECTIVE SUPERVISORY PRACTICES
Employees are the most important asset of any organization. Get current with the tools effective supervisors use to retain and value these assets. You will learn how to deal with common problems and tricky situations, including managing time and stress, and giving constructive feedback. Supervisory topics to be covered include: two-way communication and teamwork; employee empowerment; accountability; multi-generational aspects of today’s workplace; coaching and mentoring; on-boarding new employees; and conducting performance appraisals. Practical guidelines for improving your supervisory skills will be discussed. Interaction is encouraged, including discussion of participants’ concerns and issues they are currently facing. Course will benefit current, new and aspiring supervisors.

A practice of honoring yourself, your body and what it needs. We explore balance, comfort, agility, ease, efficiency and movement that is natural & optimal. This class is both restorative and stimulating. We explore body alignment and breathing centered in awareness and in motion. This is a martial art as well as a self-care practice; both calming & powerful. The intent is to nourish and nurture the body, mind & spirit. You will learn to move using energy and breath, not just muscles and strength. This is a practice of longevity. All levels welcome. Yang Style Tai Chi.

PED-901 VE26 10667 W 9:30a-10:30a 1/15-5/2 VE
Hann Cost: $95 Refund: 1/12

SUTHERLAND BARRE
Tone, tone, tone! Your body was made to move. Get into a Barre workout combining ballet-based movements, center work. You will build balance and strength. This is a great addition to an exercise program for athletes, from teens to adults and seniors. Soon after taking a few classes, you’ll see changes in a matter of weeks with consistent practice.

PED-901 VE25 10836 Th 11a-12a 1/16-5/3 VE
Sawyer Cost: $80 Refund: 1/12

VINYASA YOGA

Yin Yoga
Yin Yoga is a slow fascia releasing practice. Poses are typically held for 3 to 5 minutes in order to lengthen connective tissue and ease bones away from bones. You will use provided props to aid in postures and leave feeling relaxed and revitalized. This practice is a great addition to an exercise program for those who spend a lot of time at a desk.

PED-901 VE22 08991 MW 12p-1p 1/15-5/2 VE
Murphy Cost: $105 Refund: 1/12

GENTLE YOGA

Vinyasa Yoga
Vinyasa or Flow yoga, is a practice which combines asanas (poses), fluid movement, and breath with meditation. This is a slow, deliberate practice, with transitions between movements made while inhaling and exhaling. Some previous yoga experience is required. There will be no class March 6-15.

PED-901 VE21 09377 MV 5p-5:50p 1/15-5/2 VE
Herman Cost: $95 Refund: 1/12

MAT PILATES

Pilates is a full-body workout - combining upper and lower body work, with a strong emphasis on the core. You’ll strengthen the muscles of your arms, hips, back, abdominals and glutes. You will see changes in a matter of weeks with consistent practice.

PED-901 VE21 09377 MV 5p-5:50p 1/15-5/2 VE
Herman Cost: $95 Refund: 1/12

Pilates
Pilates strengthens your spine and abdominal core - the body’s central support column. Soon after taking a few classes, you’ll enjoy better posture, balance, flexibility and strength. From couch potatoes to trained athletes, from teens to adults and seniors. Pilates is a proven way to a healthier lifestyle and better mind-body balance.

Lower cost bachelor’s degree in Colorado.
REGISTRATION

TO REGISTER FOR A CREDIT COURSE
Credit courses are indicated by the purple, 5-digit SYN. (Example:12345)

CURRENT STUDENTS
If you have taken credit classes in the past 10 months, you may register in person, by phone or online at: http://Basecamp.ColoradoMtn.edu.

NEW STUDENTS
If you are new to CMC, or have not taken credit classes in the past 10 months, you will need to:
- Apply for admission.
- Complete a registration form.
- Supply transcripts or placement test scores for courses requiring a prerequisite.

Visit www.ColoradoMtn.edu/Register to get started.

TO REGISTER FOR A CONTINUING EDUCATION COURSE
Continuing Education courses are indicated by brown, 5-digit SYN # (Example:12345)
Students can register by phone, in person, or online for Continuing Education courses. To sign up:
2. Click on Continuing Education (brown bar).
3. Register by using the brown SYN # preceding your course from this class schedule, and the semester code. Payment online is required.

ACCUPLACER TESTING
Students must call the front desk staff to reserve a spot on Accuplacer testing dates and to receive study guide links. Call 970.569.2900 to reserve a spot.

ACADEMIC ADVISING
All degree- or certificate-seeking students are strongly encouraged to make an appointment with a college counselor. Call 970.569.2900.

DISABILITIES SERVICES
Colorado Mountain College is committed to providing access to everyone with the ability to benefit from a program of higher education. Individuals seeking disability accommodations should contact Dan Hammon, Disabilities Services Coordinator, at 970-569-2940 or jdhammon@coloradomtn.edu.

DROPS & REFUNDS
To drop a class, students must fill out a Class Add/Drop form and submit it to the campus or login to WebAdvisor and drop online. To receive a refund, make sure the class is dropped by the refund date. Students that drop classes after the refund date listed in your syllabus will not receive a refund.

PAYMENT
October 30-January 3 registrations: payment and/or payment arrangements due before midnight on January 3, 2018.
January 4-May 4 registrations: payment and/or payment arrangements due before midnight the day following registration.
